

The Spirit of God has made me, and the breath of the Almighty gives me life, Job 33:4

Together, we rise.

Together, we stand for hope.

Together, we stand for healing.

Together, we can unite against

abortion and the sanctity of every life.

Together, we stand for the unborn,

women, men, and families who need

love, support, and truth.

This is our moment to speak life, to shine light, and to be the hands and feet of Christ in a hurting world. Let's stand together

If you are unable to participate in the walk, you are welcome to donate to the Walk for Life. To do so, go to lifemv.org and click on Donate. You can add a note that your donation goes towards the walk

"A new report from the Guttmacher Institute, a longtime advocate for legally unlimited abortion, estimates that total U.S. abortions increased in 2024. The report notes that six states led the way with significant increases in abortion incidence in 2024: Wisconsin, Arizona, California, Kansas, Ohio, and Virginia. California has gone out of its way to make itself an abortion destination." (from the Washington Stand)

High School Seniors Lead Donation Drive to Support New Moms

In April, 4 students from Vista del Lago High School visited the clinic carrying several boxes filled with baby clothes, toys, diapers, and wipes. As part of their senior project, they aimed to make a meaningful impact on the lives of the new moms here at the clinic. They presented the need for baby items to four different classes, distributed flyers, and placed collection boxes around the campus to gather donations. They also wrote cards of

encouragement to our new moms, and as they visited, they were able to share one of those cards of encouragement with one of our clients. Another impact made for that mom of how loved and valued she is. Thank you to these young ladies for their love and support.

We Need You: Become an Advocate Today

I've been deeply encouraged by the incredible outpouring of support from the youth in our community- donating, fundraising, work projects- it's been powerful to witness. Their energy has brought new life and momentum to our mission

But, we still have a **huge need** for **advocates**- people willing to stand in the gap, speak up. and walk alongside those we serve. If you have a heart to help, we need your voice, your time, and your presence.

Whether you're new or have been with us, *now is the time* to step in and make a difference. Training is provided, and you won't be walking alone.

Let's keep the momentum going. Join us. Be the change
